- 1 Comments Box is always visible
 - 2 Displays Number of comment threads (excluding replies)
 - 3 Indicates the number of replies to a comment
 - 4 Comments are stamped with:
 - Number of comment and total comments (3 of 3)
 - First and Last name of User
 - Time and Date Stamp
- Comments display in reverse chronological order
- 5 Indicates the state in which a file has been attached to the comment.
 - Images will post thumbnail + File name.
 - Documents will post Document icon + File name
 - Video will post Video Icon + File name
 - 6 Replies to comments are display in-line directly below the parent comment. Replies are posted in chronological order.
 - 7 More comments link reveals older comments in the thread
 - 8 Tapping into the comments field reveals the cursor, Cancel / Add comment controls, and Attachment link.
 - 8a Tapping Cancel hides the comment controls
Tapping Add Comment posts the comment to the thread
 - 8b Tapping Attach, launches the file OS browser and allows the user to select an attachment to be posted along with the comment.
 - 9a Tapping a published comment reveals the reply field directly below it.
 - 9a Reply functionality is essentially the same as commenting except for nomenclature.
- Replies get posted in chronological order underneath the parent comment
